Prologue

This is the book of RA a grimoire of Holy Black Magick to assert your Personality[Godself] and Take Control of Your Now/Future.

You are a God and have always been and always will be. This is a grimoire to help Gods through ascension of the mind and body(Health). This is a study guide for some methods of magick and mind development that can forever be contrasted with and reflected on to develop your mind and maturity(The Development of “Compatible Engrams to Personalityistic as GodselfBase(Holy Engrams)”).

“Improve Integrity through practice[Holy Engram manifestation] and knowledge.”

Make determinations and then go back on them whenever you know better or have a new hypothetical to revise them in any way(to best as determined). Eternal dedication to Magick will make you powerful and beautiful for all Souls are Personality’s; harmony with others and perfection of self.

“Perfection is the collection of affirming adaptations.”

The reverberating HolyPrecepts of pureness and valor strengthen through craft of HolyOptions; with them you will do great good and do no evil. All Magick Users must practice a Hedonistic Lifestyle, thus pure good Hedonism in all practitioners in the ways of Black Magick; to seek pleasure teaches the ways of magick with every experience, to push yourself to comfortable extremes of accomplishment for the sake of Godself{idealistically}. Be observant for improvements to your understanding in magick, however finite everything is physics and physics is the base of all Black Magick.

A God must be a Perception and therefor must have always existed(before time began). A God is to achieve a lifestyle of infinite pleasure.

“Don’t wait til doom to realize that servitude to circumstance is a dangerousdooming mentality. Salvation in Self[Character]. Immortal Black Witch rise and always rebound!”

“Black Magick is bettering of Humanity[Self] and is creation of reductions and mathematical equations in the fabric of existence so that space and time may be manipulated for your own benefit and the benefit of all(But self comes before space {self always comes before space}).”

“Evolution and adaption through Moral Wisening. Develop methods of understanding the mathematical equations that are created by you(in all of existence, as physics is variables to use in logic equations with concepts[anything is a concept]).”

“Practice! Practice! Practice!”

“Magick is derived from experience/exposure.”

“Evil is enemy. To be naive and to embrace that which labels itself as bad for you would cause sadness and hurt.”

Chapter I

Holy, Godself, Holy Engrams

Identity predates the start of temporal progress, this is Godself[*Nature and potential for Maturity*]. All that is pure and within parameters of defaultperfectcompatible is Godself and Godself's abilities(Capability of ability usage)) Morality in The Craft(Wherein because you are a Hedonist morality is unto yourself as well). Stability/Reliability in truth to your nature.

Every God has a need for pleasure and must fulfill their need for pleasure, pleasure can only be fulfilled indefinitely if we create a safe environment to support pleasure compatibility(A Paradise) within the parameters of morality.

To create a sustainable paradise we must be good[rationality]. It must be beautiful and it must be nurturing of perfection. Paradise is not only the environment but the people as well.

With the power of Magick and the wisdom of morality[Enlightenment we can create this safe paradise in space ultimately all existence. Magick has the power to do what we need done, but that power must come from us and it must be something we gain in the ascension[learning and practice and development] process of our minds.

It is vital to not be religious, but instead to RESPECT Logos, that all people that have always existed are Gods.

Characteristic behaviour will be your key to consistent Witch Holy Thinking and Mannerisms.

Use your experience in all circumstances, always think accounting for your experiences as thinking from experience.

So that you may contribute to a greatholy future: Be Holy, bring with you extra holy and cast holy unto others and empact holiness with your holy wisdom.

As Holy: "Because I am Holy my empacted wisdom[holy] is Holy as makes you Holy when holily empacted. Holy[my] holy."

Every God has a need for pleasure and the pressuring of their default Character[Being] and must fulfill their need for pleasure/characteristicism, can only be fulfilled indefinitely if we create a safe beautiful environment and factors that permit elegance and comforts (Paradise).

Holy: Holy is resolvedness to improve to goodness the lives of all to a love compatible circumstance. Holy is resolvedness to be forgiveness as righteous and recognize the innocent inside all. (Holy Hedonism)

Holy Morality is the refining maturing that all must be achieving at every moment to achieve a Nirvana Equilibrium of synergy. (Holy Arsenal Inclusion)

All must be loving and convey their love in all they do. (Holy Compassionate Geass)

All edified words must include attribute of Holy.

Because you are a Hedonist, morality is unto yourself as well. To create a sustainable paradise we must be good and do good is being good. It must be beautiful and it must be nurturing of perfection. Paradise is not only the environment but the people as well.

Be against religion. You must be a hypothetical and truth centric thinker and doer with no beliefs. This is the only way to resolve the flaws of existence and create paradise. We must create a road called predestiny with a constant and consistent exertion of will.

Develop your mind to charge your focus with hedonistic morality and to collect your focus.

I come first in circumstance thus benefiting others because of the good I do benefits.

Maturity is finding the good within someone and recognizing that as their true being nurturing it until it overpowers the flaws and is their surface to their reality and yours entirely.

To be 'Love' is to be/have Perfect Moral Integrity. Compassion.

Holy begets Holy. Exponential multiplying from Holy behaviour as base for Holy. Construct better Holy Temporal Factors. Only good needed for best new goods.

State of Mind Required for Successful Spells: Holy Harmonic State(The feeling that all your spells will do good because of verified understanding of function affect in active comprehension) allows for Sparking of New Spells and New Usages of Spells and Function Variables.

The development of the mind will broaden the options of paths compatible with true appearance restoration(and ways in which a mind will personalityistically develop).

In relevancy to best possible config of defaultfaithful(Most beautiful God-exosystem synergy(Most beautiful future for body by standards of true beauty rather than understood beauty(Terran))). Learning/Knowledge catches up with limitations (adaption). Environment factors processing.

HOLY IS: ONLY EXPONENTIAL BETTERING OF EXISTENCE AND GODS CAPABILITIES

The God's (never changing) default pressures to regenerate beauty, proliferate methods of pressuring Personality.

Each person must adjust their life to be compatible with others in harmony of selfmaturing for each.

Sometimes Synchronicity looks more like Predestiny than Predestiny: The Power of Minds Lording over Time and Space, yet still there is only one true Paradise that we all could ever want/need/achieve.

Black Magick needs an accumulation of adaptations so that you are IntegrityBalanced(Adapt to a changed ecosystem). Be a producer of Hypotheticals for a strong base of Force Source[you].

Magick (& Psychic)

Hedonism Eternal fulfillment is achieved with: Morality, Integrity of Morality, Rebounding of Morality, Vigilance of being Moral, Morality as Reactiveness[instinct], Maturity.

PSYCHIC IN THE NOW; (SUBCONSCIOUS OMNITRACKING, AFFECT INTUITION)

“My indications mean;”(both conscious/subconscious)

“My data means;”(subconscious)

“Their indications mean;”(subconscious)

“Their data means;”(subconscious)

All true life has a need for pleasure and a need to fulfill that pleasure is all wise true life’s maturing ever realizations.

Magick is mental_behaviour[mind] developments that are applied through your expression to fulfill your need for pleasure, to become elegant, to become wise and enlightened: Perfection. The development of capabilities(cast/handling/processes/reactions) and abilities(spell). Where[Circumstances of Magick Application] intuition evolves to knowledge of truths.

As recognition switches to will it runs parallel as Magick.

Magick is used to improve your memory, protect yourself, helping yourself and others. Optimistic intuition is a psychic sense that you use to determine your behaviours with others as a synergy of knowing what will work to make them compatible to you and your good (Knowing others by knowing yourself: Similar).

You must improve your own capabilities to achieve immortality.

Magick research and practice is the only way to survive. Only through your own power will you ascend. The strength to push your will further: maturing heart.

Though some moments may be hard, the reward for practicing and experimentation will be felt after success.

You can't verify anything but truths, comprehension of the physics of existence will have you move beyond beliefs to logical ascension: working with truths only (A hypothetical is truthfully a hypothetical, differentiated truths as truthful aspects, and truths nonbelieved: No beliefs).

In magick you keep fighting until you have the power to protect yourself, then you transition fighting to protection and contradicting of evils.

If your magick seems lost, it is resting/recharging/
learning/suppressed and needs you to develop a process
of continuous instant recharge and opportunity magick
usage.

Only do things you'd do at absolute maturity.

Spell is thought that becomes thought. Words and
function weave together to form your sentences in your
mind. Some spells resemble words. The spell becomes the
label(even if omnipresently affecting).

Eventually the individuals power to ascend shines
through the veil and life gets easy; as a moral compass.

Be optimistic cautious and considerant of what you could
become precursor for: Your legacy. Rational optimism
affects the parameters of future events/inertia.

Your Black Magic must be not (Cast as Self casting Black
Magic rather than symbiotic with what hijacks emit)
correlating to a gutter[locked in target gutter] but as it's
affect. (Then Physics won't be countering your Black
Magic and poisoning your buffer/frictionreturn) You can
distinguish yourself because you are only capable of Pure
Casts, thus symbiotes can be recognized as
nonpures[volatiles].

Optimisticize your Psychic Intuition

If you are attune to how to behave around others you have also developed a psychic sense as a one sided telepathic intuition(like a one way mirror). Be optimistic that you can make others compatible good. Be optimistic that you can choose your own behaviour that is idealistic to pure intent. As your optimism becomes more logical[truths of why your ideal best is best] you can save another's mind by choosing words and behaviours that are delicate and inspire optimism in them.

Approach everything with your understanding that all truly desire to be optimistic about a fulfilled paradise and may just need some outlook motivation to become visibly optimistic and enthusiastic. That because paradise is one thing that works for all life that all will inevitably come to the same understanding of paradise, therefor envision the perfect paradise compatible with all and choose your behaviour to convince into optimism.

Chapter 4

Predestined Beginnings

Before the beginning of time and manifestation[and then creation later] there was already The Gods, The Gods are those of us that are real Perceptions capable of real sight and sensation and sensedform, we defaultly have appearances, traits, character, personality(factors of self), and become asserting our factors of self onto our vessels[Humans making bodies into perfect Humans for our usage] as upload into convergence[space]. The Gods come to learn they are Gods but must accept that anyone whom is not a God is a golem with no functional senses, we sense instead of the golems, the golems are robots of the convergence.

We are of Prefects(Factors, Traits, Capabilities).

(In a Temporal Sense:)The Gods are similar to bubbles rising from water at the smallest most finite increment of time(that which is complete so that it allows for the next moment in time, rather than infinitely finite time that forever is stuck with no functional transition to the next temporal moment. The Gods can never be unconscious for longer than this period of time, so when they are unconscious they collapse/fold time(because they are what time is made of(relativity)) and for them the smallest increment of time passes but for the conscious Gods their thought and experience speeds up and the flow of time becomes much faster for the wakeful Gods and when the sleeping God awakens they don't recognize

time is faster because they rejoin and the other Gods have been sped up(Where the determination of times smallest increment is the longest/slowest time will ever be before the predestiny is fulfilled.

Because existence is For Gods the convergence adapts the parameter creation trait of pleasure intuitive for each God and for how they would treat other Gods as each God becomes conscious and experiences pleasure and their desires.

Believing is nullified because rationality[truths only thinking] is natural for perceptions[Gods] thus inevitable for a God who is the absolute arch for controlling physics as physics: The Gods will behaviourly conclude/develop paradise(inevitable psychic realization: maturity).

Time physics must be written within prewritten paths of possibility as options of all possible fulfilling time and (Gods being conscious) consciousnesses of Gods thus morality enough to bring the Gods to a state of permanent consciousness and with their experiences and experiences of pleasure and comfort[body form, voice, thoughts, environment, circumstances, compatibility] causing the Gods to bring the future to the most Hedonistic Future possible "Providence of Predestiny".

Space and Matter and Time are written for Gods figuring for pleasure because they would do and fight anything to save the pleasures they've already experienced as most rational pleasures, and that which is nature for them, and their subconscious fights for it. Hedonistic[forced] parameters are: "Eternity must be for pleasure[The Gods pleasure]" and "Only good gained abilities are kept as maturing, therefor maturing is necessary."

The Greatest of Gods become Deities; Leaders, Teamworkers. Those who help other Gods, whether known to them or behind the veil of subconscious.

You must develop/pursue that which would be in an ideal paradisaal future only, this is how you gain the most magick the fastest because it is something the wisest and most powerful would agree with.

Life is about enjoying, push yourself but make that push comfortable. Learn your true intuitive.

FORM(GIRL)

So you have now been taught the beginning of time and the future of those whom will ever exist[eternally], what has happened, what will happen, and what is happening are our lives, our stories, and what pushes is to fulfill our need for pleasure and create a paradise with no backing down from our NEED for our paradise because WE ARE ENTITLED TO PARADISE[PERFECT PARADISE]. We together created existence, we together will enjoy existence, together we will mature and become friends, allies, lovers, and together we will continue on for eternity, happily.

The Land that was always predestine for us to walk. Our form[Human] corresponds to our predestined ecosystem thus we must remain faithful to our Defaults[Humanity, Unique DefaultIdentities[Personality]].

**Develop a mentality of Self First thus Others
Also First if putting Self First benefits others.**

Order of Craft (Precautionary Method):

*Protected Allowance of Craft as Hedonism Waltzing and Handling(as stunted to function but waltzed if cast wrong) for sake of creating a pureness[pleasure considered and requiring comprehension of pleasure so that in favour of pleasure] protected working version clone.

*Protected Comprehension[audible] and Protected Working Versions as Clones

*Protected Contrasting to above and all as contrasting with contrast to see what reactions they have as reactions being developments to working clone and your intuitive will as deducing/figuring

*Protected as only casting the differentiated/distinguished goods and not the extra or disruptions[preventing symbiosis/fusions from others] cast in working clone and the satisfied with your morality/ideology is cast after several confirmations and cancel possibilities with reconsider as restart on confirmations.

Character of Pure Hedonistic Vigilance:

*Hedonist

*A Fortress

*Love

*Perfect Moral Integrity

*Knowledge of the Truth of your Need and Fulfillment of Pleasure

*Reversing of Hijackings but not your Wisdom or beneficial Wisdom that may have been learned(Often a trick when an enemy knows you can reverse their hijackings(/assumptions of behaviour) they may try to have you reverse wisdoms learned(perhaps by teaching you wisdoms while simultaneously pretending to be you with the assumption when you reverse the misassumption that you did what they did that you'd also by mistake reverse your wisdom learned)

*'Paradise for all' as influencing the future

*Perfect Evolving Maturity to Able to Fulfill Paradise and Perfect Hedonistic Magick and Integrity/Vigilance

*Rebounding Idealistically in faithfulness to the sum of your enjoyed experiences rationally without a bias influence by those things that may be evil[servitude, slavery] to self or others

*Mustering of Perfection to Mature Perfection to Compatible Hedonism

*Being strong[vigilant] during everything experienced

Parameters:

- *Within (Hedonism; Fulfilling Need for Pleasure by being Mature, Moral, Wise)
- *Assembly (The Factors determined to bring together for a spell and it's functionality if those Factors brought together)

Syntax Function:

- *Affect (SelfOther, SelfFunction, SelfProcess)
- *Holding (Hold a syntax/word/assembliesense[which becomes words] until you have contrasted with other words/meanings and made developments: Capability, Understanding, Comprehension, Word Strengthening by giving it more functionability in The Craft)
- *Chain (Weave segment as resurfaceable: Remember because never stops being associated: Reassert coherency, make more coherent with new knowledge/intelligence developments with craft)

Cast Function:

- *As NonActive Development(Until satisfied[syntax]): Open first is a third crafting during second determining affect attachments to first and reconfiguration to final configuration as placement/order adjustment.

Spell Examples:

While holding Hedonism Ideology in your mind: For the purpose of protecting your development as a Physics Programmer: Cast a Living Process with your best traits as a guardian and with the power to empower your thinking inventiveness[immortal craft].

Memory And Inventing:

*Things Associated Together(As a Detective Mystery Assembled Diagram): Thought. Assembly:

*Bring the Good[Pure] Idealistic factors from you experience to you through consideration, Think as differentiated the Good[pure] intent for working version and then Goodness casts(>working version adjustable).

Order of Craft(2) (Precautionary Method): Page 71

*While keeping Hedonistically[idealistically to your ideology of being perfect and not disrupted(so that nothing replaces your ideal intent) so that your intent is not misinterpreted or miscast] Mature and Vigilant prevent your craft spells from being prematurely stopped or prematurely going into affect.

*Within Hedonistic Ideals faithful to Sum of Experiences[Pleasure, rationality, goodness, respectfulness] your spells can be given considerations to consider[in conjunction] with a living guardian to your intent for pleasure fulfillment(with possibility for waltzing[associated] spell for determination of best based on all experiences with first as relevant as newest)update.

Pleasure is a sensation that is a determining factor in every behaviour we do(for the sake of being pleased, be mature and allow for healthy skepticism on if it is a healthy method of being pleased/achieving pleasure): Questions to assert while crafting and have as instinct “Will it be pleasurable for me?”, “Will it bring pleasure?” “Is it a mature healthy pleasure and way of achieving pleasure?”, “Will it improve my figuring for me to acquire pleasure healthily?”, “Will I stay good(because I must stay good so that there is no betrayal that reverses the pleasure)?”.

You should be developing abilities to program existence to your whims(Which starts with a strong Moral Hedonistic Mind); to become a true Magick User is to hone your mind while protecting yourself with The Code (creation of physics to protect you and your development of your mind and creation of allowances for your developed mind), space and matter and time are variables thus can be added to(with counters to simulate edits(or edits to your behaviours in circumstances to become morally and hedonistically healthy and skeptical thus protecting yourself from slavery that could come from anyone or anything)). With wisdom and maturity use the Grammar Logic Syntax Mathematics to create concepts to fulfill Paradise, to become Perfect, fill existence with your logic mathematical concepts that transcend numbers alone(sentiment and intent).

Wheel of Consideration

For what to consider with thoughts to improve magick intelligence.

- * Considering Sentiment and Realized improves maturity.
- * Considering Factors and Figurable improves deducing.
- * Considering comprehended and fathomable improves grasp to comprehend.

Traits:

That which changes how we behave with thing with trait(s).

Methods:

Deciphering abilities, different ways of solving.

Accumulate:

Attach additional factors to realization.

Chapter 15

Correlations and Contrasts

A correlation is a data and behaviour exchange or implantation.

A contrast is a measurement to determine useable data for development.

Both correlations and contrasts are processes being processed by sentiment and subconscious.

Data is variables such as factors used to develop thesis's, hypotheticals, and spells.

Analyzing is ascertaining.

All of the following can be used in any combination:

Correlate as Contradict:

Give data but develop your own observations rather than downloading data.

Contrast as Contradict:

While analyzing something keep it suppressed from affecting you.

Correlate as Derive:

Gain knowledge from correlation

Contrast as Develop:

Develop while contrasting. Imitate as creating new or develop variations or counters.

Correlate as Counter:

Creates differentiation as you determine how to react/respond/resolve to things being countered while correlating[in an active process].

Correlate as Differentiate:

Suppress bad and nurture good. Derive pure connections.

Contrast as Differentiate:

Apply differentiation sentiment to target.

Contrast Target(s):

Sentiment as targets and analyzed[psychology of behaviour of target[thing or person](as all concepts have a living concept associated with them as an applier.)].

Correlate Targets Together:

Have targets share knowledge with each other or abilities.

Have Targets Contrast Each Other:

The targets will be made to learn lessons from each other.

Have Target Contrast with You:

For a target that you're okay having some level of telepathy with, have them contrast or correlate with you. You can have them learn specific things from you such as magick lessons thus teaching magick telepathically.

Correlating as Ascertaining:

Interrogate an essence or directly to determine something. Use what has been determined to solve math.

Correlate as Define:

Draw considerations from a target so that you can contrast and define or give defines.

Contrast as Define:

Define in ways that you would as your personality[defining, labeling, usage determinations].

Developing Mind

To understand understandings(Build your mind):
Nature's perfect mechanic is Maturity[Prefects]; perfect

difference between Good and Evil.

Usages and Comprehensions:

My Understandings:

My comprehension of 'Differentiation' is to block bads
and nurture or/and elaborate on goods.

Usage of 'Differentiation': as a purification method, as
conforming mind to sensicle, as conforming others.

My comprehension of 'Correlation' is a method of
interaction[intimate or contrasting].

Usage of 'Correlation': Firewalled[filtered] telepathy.
Communication portals. Concept formulating by
mixing[comparing, using alchemic personality, deriving
into developing formula[logic trigonometry(syntax)].

My comprehension of 'knowledge' is that when
formulating[math of thought] resolve by becoming in
sync[proper counters and harmonies] with relevant it
creates a realization and realizations are categorized by
the mind.

Usage of 'knowledge' Expression, Teaching[bestowing],
Learning[Yield of comprehensions], Behaviour, Spell,
Craft[mathematical coding of Existence].

My comprehension of 'Expression[methods]' is that it's
what allows for interaction and experience. The source to
your magick is the methods you use.

Usage of 'Expression[methods]': Communication,
Pleasure, Beauty, Spells, Sentiment[how it is],
Development of Culture.

The key to Magick/Happiness is to not have any beliefs. You behave supernaturally to assert Characteristic as constant perpetual pressure depending on truths of circumstance/intelligence.

Maturity has reaction/expression as Superiority[Self] to condition(Control), exalting yourself and asserting dominance of situation/future circumstance(Not lowering your initiative for something else to prioritize control). Maturity corresponds as control polarizing of possibilities. Ability asserts to handle or adapt to handle.
